Ref.No.MAIT/PY/2396

October 22, 2021

Shri Amit Love Addl. Director Ministry of Environment, Forests & Climate Change

## Subject: Request for immediate relief by exempting Rule 11 in specific cases and extending the timeline for implementation of the Rule 11

Respected Sir,

## Greetings from MAIT!

MAIT is the industry apex body, representing the Electronic Hardware sector in the country. MAIT also represents major Information Technology, Data Communication, Networking products, and Technology companies. We would like to acknowledge the fact that the collaboration of MAIT with MoEF&CC has been steadily increasing.

The members of MAIT had made extensive representations, both written and verbal, before your offices during the consultation process since the release of PWM rules 2016 & the draft Plastics Waste Management Amendment Rules 2021 expressing significant concerns with the proposed amendment, specifically pertaining to the marking and labelling requirements specified under Rule 11.

The amendment to Rule 11 (1) has come into immediate effect and has expanded the scope of the marking and labelling requirements to plastic packaging used by producers and brand owners.

The members of MAIT would like to submit the following implementation challenges for your due consideration and immediate action:

S.No.	Industry Concerns	Industry Request	Rationale
	IMPORTED PRODUCTS	6	
1.	Marking and Labelling requirements on Imported Products under Rule 11	exemption of Rule-11 for	<ul> <li>The industry requests an exemption for imported products from the marking and labelling requirements, which is in line with the existing exemption given to multi-layered packaging (MLPs) used for imported goods [Rule 11(1)(b)].</li> <li>It is important to understand that global brands have uniform manufacturing facilities, starting from the product assembly to its final</li> </ul>

2.	DOMESTICALLY MANU	IFACTURED PRODUCTS	<ul> <li>packaging. These common facilities use the same plastic packaging for all countries including India.</li> <li>Making any India unique changes in the packaging will be impossible to implement and need to be aligned with the global packaging norms for uniformity.</li> </ul>
2(a)	No Lead time for compliance to Rule 11 on plastic packaging used in domestically manufactured products	A transition period of at least 12-18 months be granted to implement the country unique labelling requirements for domestically manufactured products.	The amendment of Rule 11, which has come into immediate effect, do not provide any lead time to the domestic manufacturers to make requisite changes in the current plastic packaging. Changing the marking or labelling require extensive testing of solutions, identifying appropriate raw material sources, addition of necessary capital equipment for etching/ printing/ labelling and updates to production lines processes. These are time and resource consuming processes and requires adequate time for implementation.
2(b)	Marking & Labelling on small-sized packaging used in domestically manufactured products	We request an exemption from Rule-11 for small-sized plastics used for packing spare parts and components.	Due to size constraints, it is technically difficult to adhere to the marking and labelling requirements on plastics used for packing spare parts and components.
2(c)	Marking of multiple registration numbers on plastic packing	We request that marking and labelling requirements to be simplified and should be confined to either the manufacturer <sup>1</sup> or the brand owner/ producer.	- The PWM Amendment 2021 requires the name of the manufacturers along with the name of the producer or brand owner to be marked. The draft amendment released in March 2021 by MOEF&CC had proposed the marking

<sup>&</sup>lt;sup>1</sup> As per the rules the manufacturer is defined as a person or unit or agency engaged in production of plastic raw material to be used as raw material by the producer.

			requirement for
			producer/brand owner only.
			However, in the Final
			Amendment Rules 2021,
			released in Aug 2021, the
			manufacturer is required to
			put their registration number
			in addition to
			producer/brand owner's.
			- This requirement is very
			cumbersome.
			<ul> <li>Further, since the Rule allows brand owners to</li> </ul>
			allows brand owners to collect plastic packaging of
			any brand, hence, marking
			the plastic packaging with
			manufacturer and producer
			details will not help in
			improving the collection of
			plastic waste or enhancing
			the recycling rate in the
			country.
			- Moreover, due to limited
			space available on the
			plastic packaging, it is not feasible to incorporate
			feasible to incorporate multiple registration
			numbers on plastic
			packaging.

---	--	--

To sum-up, we humbly request your kind offices to provide immediate relief by:

- 1. Exempting the imported products and small-sized plastic packaging used for components and spare from the requirement of Rule 11.
- 2. Extending the timeline for implementation of the Rule-11 by at-least 12-18 months for companies manufacturing in India.
- 3. Providing clarity that rule 4, (1) (a) is not applicable on ICT/ Electronic industry & is applicable for foodstuffs, pharmaceuticals and drinking water industry.
- 4. Exemption for shrink wraps, adhesive tape & bubble wraps from rule 4 (1) (d) & rule 11.

With regards,

Serge Cand

George Paul Chief Executive Officer
